PRESS RELEASE

Talon Air adds a Challenger 601 to its Charter Fleet

New York, New York – December 7, 2011: Talon Air, New York's premier private jet charter and aircraft management company announced today the addition of a Challenger 601-3R large cabin aircraft to its fleet of business jets. The Challenger 601 heavy jet, tail number N360AP, is based at Talon Air's operating base at Republic Airport (FRG) in Farmingdale, NY and is available for immediate charter. The Challenger 601s range of 3,400 nautical miles provides Talon Air's clientele with non-stop transcontinental and international service.

"We are pleased to offer our clients a comfortable and cost effective heavy jet option for intercontinental travel" said Adam Katz, CEO, President and Founder of Talon Air. "The Challenger 601 allows us to keep up with our clients increasing demand for overseas travel. This is a fine addition to our fleet of over 20 jet, turbo, rotor and amphibious aircraft."

The aircraft offers a ten-passenger configuration, including a four-place divan and six executive club chairs. The standard entertainment amenities include Airshow 400, Aircell phone system, iPod docking station, DVD player and wireless headsets. The forward galley includes a convection/microwave oven and espresso coffee maker. Talon Air Maintenance Services will renovate the interior cabin to include an ATG 5000 internet system, one of the fastest wireless platforms on the market, allowing passengers to surf the internet, stream movies and send and receive emails. The aircraft will also be equipped with additional electrical outlets for additional connectivity use. An iPad swing arm will be installed allowing users to utilize their iPads to watch videos. The expected date of completion is February 2012.

The Talon Air fleet continues to grow through aircraft management. Managed aircraft supplement Talon's core fleet and provide high-quality jet and turbo prop aircraft for its broad base of customers. Aircraft management is an attractive option for corporations and private aircraft owners wanting to defray the overall cost of aircraft ownership by chartering their aircraft to Talon's block and corporate client base.

To learn more about Talon's aircraft management programs or to request a private charter quote on this aircraft, visit www.TalonAirJets.com or call 631.753.8881.
