PRESS RELEASE

Talon Air, Inc. Unveils its Redesigned King Air B200 Turbo Prop

Farmingdale, New York – May 2010: Talon Air, Inc., a worldwide leader in private aircraft management and luxury private air charter, announced today that it has reinvented its beautiful state-of-the-art Collins Pro Line 21 Beechcraft King Air B200 turbo prop just in time for the 2010 summer season. With a customized new paint job, new interior, new entertainment system and passenger avionics upgrades, the only thing returning passengers will recognize is the registration number *N299AK*.

Painted in Wichita, Kansas by Hawker Beechcraft the private aircraft now sports the Talon hawk head on the tail. While

in Wichita, Global Aircraft Interiors changed out the cockpit and passenger compartments. The new interior matches the current 2010 production line, the leather, upholstery and woodwork were all replaced. Airborne Avionics focused on the cabin electronics creating a truly unique entertainment center. Passengers are now able to stay connected and may enjoy some of the same electronic amenities that they enjoy on the ground. This is the first King Air 200 to have the Airshow 4000, BlackBerry e-mail service, a Sat phone, XM radio and custom iPod dock. This custom cabin electronics package creates a seamless transition from the office or home to the aircraft.

“We did not simply want to redo the paint and interior. We wanted to redesign everything and make it new.” said Jason Sanders, Senior Vice President. “Talon has become known for our service, beautiful aircraft and passenger amenities. We have taken the passenger electronics we

install on our business jets and put them in the King Air turbo prop. It's all about the passenger experience.”

The King Air 200 is the most popular executive turbo prop of all time. This redesigned aircraft has it all. From the winglets that provide increased efficiency to the wing lockers that provide extra storage. If you are transporting your executive team to an important client meeting or just getting away from it all, this 9 passenger aircraft is ready to transport you there.
