PRESS RELEASE

Talon Air, Inc., Adds King Air B200 to Expanding Business Jet Fleet

Talon Air, Inc., New York's most comprehensive aircraft management and jet charter company announced the addition of a King Air B200 to its growing charter fleet. The addition of this aircraft is part of the company's strategic expansion in its turbo prop fleet and will allow it to better meet private charter flight requests from its Fortune 500 clients and corporate charter customers.

“Our turbo prop fleet supports our jet charter clients by opening up a host of small airports that typically cannot accommodate private jets,” said Jason Sanders, Senior Vice President of Talon Air. “Talon’s vertically integrated fleet of private aircraft gives us an in-house solution for all of our clients’ travel needs.”

The Talon Air fleet has steadily grown with the addition of managed aircraft. The managed aircraft supplement the core fleet and provide high-quality jets for Talon’s broad base private charter clients. Aircraft management is an attractive option for corporations and aircraft owners who want to generate revenue when their aircraft is not being used in order to reduce the overall cost of aircraft ownership.

The King Air 200 is the most popular executive turbo prop of all time. Equipped with wing lockers that provide extra storage, this roomy 7 passenger aircraft is ready to transport you or your executive team to important client meetings or to just get away from it all. To learn more about Talon’s aircraft management programs or to request a private jet charter quote on this aircraft, visit www.TalonAirJets.com or call 631.753.8881.

About Talon Air, Inc.
