PRESS RELEASE

Talon Air, Inc., Largest Hawker 4000 Fleet Operator

Farmingdale, New York – December 2009: Talon Air, Inc., a global leader in aircraft management and luxury private jet charter, is home to the largest fleet of Hawker 4000's. These aircraft are the most advanced and luxurious super-midsize business jets in the world. With an outstanding balance of speed, efficiency, comfort and responsiveness the Hawker 4000 serves as the indispensable business tool, getting our clients where they need to be. With these additions to our fleet, Talon Air continues to offer a depth of products that are the most requested in the industry.

With its unique composite fuselage the aircraft boasts a six-foot high stand-up cabin from front to back offering the largest cabin in its class. Hawker Beechcraft has designed a quiet, comfortable environment ideally suited for working or relaxing.

Talon Air's pilots were the first to be certified by the FAA to operate under FAR Part 135. Our flight crews are ARG/US Platinum and Wyvern approved. Last month the FAA issued Captain Fabian Nieto his check airman authorization. Captain Nieto oversees the training and standardization of our Hawker 4000 pilots.

“We have a great group of pilots flying the 4000” said Captain Fabian Nieto “The pilots flying this aircraft were hand selected from our pilot group. I don't know who enjoys the aircraft more the pilots or our passengers. Being onboard this aircraft is a pleasure no matter what seat you are in.”

With a 99 percent dispatch reliability this aircraft stands above the rest. Its performance has allowed Talon Air to operate from airports that typically can not accommodate aircraft of this size. The Hawker 4000 has opened airports with short runways to Talon's clients such as Ocean Reef, Florida (4500 feet), Hilton Head, South Carolina (4300 feet) and East Hampton, New York (4255 feet).

With an overwhelming customer demand for this aircraft, Adam Katz, the President and CEO of Talon Air has purchased an additional Hawker 4000 from Hawker Beechcraft. The aircraft is scheduled to be

delivered at the end of the first quarter 2010. To view videos of the Hawker 4000 visit our website www.talonairjets.com

About Talon Air, Inc.

Founded in 2001, Talon Air is a boutique luxury private jet and aircraft management company based at Republic Airport in Farmingdale, New York in a state of the art facility which will soon double in size with the addition of our 60,000 square foot brand new hangar and office facility right next door. With the addition of new jets to its fleet, Talon continues to be an innovator in the industry delivering an unparalleled level of consistency and customer service. The vertically integrated fleet includes the Sikorsky 76B helicopter, King Air B200, Hawker 400XP, Hawker 800XP, Hawker 900XP, Hawker 4000, Challenger 300, Legacy 600, Challenger 604 and Gulfstream IVSP." All of our ATP, CAE SimuFlite trained pilots are Talon employees and maintain the highest safety ratings available. Talon Air is Wyvern Gold, ARG/US Platinum and an IS-BAO registered operator.
