Take Flight for Father's Day

Give your father the luxury of time with **Talon Air's** Father's Day jet upgrade bonus. In honor of Dad, Talon Air is offering one complimentary class upgrade with the purchase of any of its year-long packages. In addition, a standard package also provides helicopter service to the airport, passenger visa waivers, flat rate for international travel, and flexible membership options. This luxury boutique carrier is distinguished by its first-class amenities, such as its Spa in the Sky option, and on-demand service. Talon's core fleet is privately owned and operated, and the company employs its crew full-time to guarantee the highest level of security. Talon has exclusive access to all airports that have paved runways, and jets can be chartered with only one hour's notice. A year of private travel, which includes 50 hours on a mid-sized jet like the Hawker 850XP, starts at \$250,000. (631.753.8881, www.talonairjets.com)
